

New Plasticizer Technology

technology watch: plasticizers - essenscia - the first is that practically all new applications are about non-phthalate systems and the second main trend is that about 50% or more - of the industrial research on plasticizers is towards renewable resources.

flexidone a new class of innovative pvc plasticizers - materials technology at the university of applied sciences cologne (institut für werkstoffanwendung der fachhochschule köln) have collaborated to develop a new class of plasticizers for pvc based on linear alkyl pyrrolid ones.

new development in ester technology - hallstar - new developments in ester technology stephen o'connor, technical director, industrial abstract this paper will discuss three areas of new ester development. these include the paraplex approach, a computer modeling program, low polarity esters and hallgreen® esters, a new line of renewable and sustainable esters for rubber and thermoplastics. the paraplex approach is a molecular design ...

phthalate-free plasticizers in pvc - understanding of the relative merits of the new plasticizers. the table below summarizes what is known and unknown about the six alternative plasticizers now in use, and the products in which they are used.

uses of phthalates and other plasticizers - cpsc - during the past 29 years, allen has worked in plasticizer manufacturing, plasticizer technology, new product development, technology management, and new plasticizer research and development, in the us, europe, and asia.

synthesis and application of a new environmental friendly ... - 10 long zhang et al.: synthesis and application of a new environmental friendly plasticizer non-toxic and biodegradable plasticizers to replace traditional plasticizers in recent years [3] .

ferro launches non-phthalate plasticizer technology - ferro launches non-phthalate plasticizer technology ferro corporation, a leading supplier of performance additives, has launched santicizer® platinum p-1000 as the first commercial product in a series of innovative high performance non-phthalate plasticizers. platinum p-1000 exhibits ... published on: feb 17, 2011 company: ferro rampf giessharze presents new generation of plastics from bio ...

a new window of opportunity - eastman - emerging insulated glass (ig) technology has ushered in a new era in architectural thermal efficiency by better protecting the integrity of the inner chambers and any encapsulated gases. but an insulated window will only work as well as the sealants that bond the glass panes. . . . and a sealant will only work as well as its plasticizer. today's window manufacturers typically use two types ...
